

AWNMAX AWNING FABRIC

Awnmax is a premium translucent backlit and frontlit awning material is specifically designed for commercial and sign-face applications.

Awnmax fabrics are brighter, more vibrant and last longer than other awning fabrics on the market. Best of all, WRI Supply stocks all of the 16 colours.

Graphics

- UV & Solvent
- Accepts 3M™ Translucent Films*

Material Sizes

- 80" x 96'
